## Introduction

GIS projects scope.

The purpose of this series of webinars (one for each beneficiary) is the identification and description of the GIS project goals and outcomes required by the project beneficiaries.

## Goal

The webinar “GIS maturity assessment” is dedicated to present the check list content.

At the end of webinar the audience of the selected participants will have the required informations to fulfil the check list.

## Content

The webinar is made up of two parts:

### Part 1: Welcome.

- Welcome and housekeeping instructions [1 min]

- Presentation of participants. Participants get to know each other's names as well as professional and personal backgrounds. [4 min]

Part 2: **Checklist presentation.**

- The scope of the checklist, its content and further organisational instruction will be provided [15 min]
- Q&A [5 min]
